

**TO BE CONSIDERED FOR FALL 2010 ADMISSION TO THE NIH GRADUATE PARTNERSHIPS PROGRAM  
ALL APPLICANTS MUST FOLLOW THE DIRECTIONS BELOW.**

### APPLICATION DEADLINES – GPP APPLICATION

GPP application deadlines for Fall 2010 application cycle are listed below. Review this information carefully. Your GPP application must be completed by the specified deadline for you to be considered for admission. If you select multiple partnerships from the following list with different deadlines, your application must be complete by the earliest deadline.

- Application Deadline October 31, 2009\*
  - NCI – Molecular Pathology Consortia
- Application Deadline December 15, 2009\*
  - Boston University – Bioinformatics
  - Brown University – Neuroscience
  - George Washington University – Biomedical Sciences
  - Georgetown University – Biomedical Sciences
  - Johns Hopkins University – Cell, Molecular, Developmental Biology and Biophysics
  - University of North Carolina at Chapel Hill – Cell Motility and Cytoskeleton
- Application Deadline December 31, 2009\*
  - NINR – Nursing & Biobehavioral Research Consortia
- Application Deadline January 1, 2010\*
  - Karolinska Institutet – Neuroscience
- Application Deadline January 4, 2010\*
  - University of Cambridge – Biomedical Sciences
  - University of Oxford – Biomedical Sciences
  - NIH Intramural MD/PhD
- Application Deadline January 15, 2010\*
  - NIAID/RML & University of Montana – Molecular Basis of Infectious Diseases
- Application Deadline February 1, 2010\*
  - University of Maryland, College Park – Sensory & Communication Neuroscience
- No GPP Application\*
  - University of Pennsylvania – Immunology

\*Some university applications have an earlier application deadline than the GPP; check the university webpage for details.

### APPLICATIONS REQUIRED FOR ADMISSION CONSIDERATION

Students wishing to enroll in an NIH-University partnership (Institutional Partnership) must complete BOTH the GPP and the University Application by their respective deadlines for all partnership universities except for those noted below.

Only the GPP application is required for admission consideration for the following partnership universities (matriculants will submit their university application in late spring).

- Johns Hopkins University – Cell, Molecular, Developmental Biology and Biophysics
- Karolinska Institutet – Neuroscience
- University of Cambridge – Biomedical Sciences
- University of Oxford – Biomedical Sciences

Only a university application is required for admission consideration (a GPP application is NOT required) for University of Pennsylvania – Immunology.

### GPP APPLICATION COMPONENTS

#### Part-A – Complete this Form First.

This portion of the GPP application collects your contact information, education history, standardized examination scores, references, and partnership selection. Some partnerships require additional information; review the partnership descriptions for guidance.

#### Partnership Selection

The GPP has many NIH-University Institutional Partnerships. A complete list and description of these partnerships is available through the links provided above. If you have any questions or concerns about identifying which partnership(s) best match your education and career goals contact the GPP or any of the partnership directors for assistance. You may apply to up to three partnerships.

#### Part-B – Access Requires Password Generated from Part-A.

This portion of the GPP application collects your scientific discipline/research interests, research experience, publications, presentations, awards/honors, extracurricular activities, personal statement, and any additional information you wish to provide. In addition, you will need to upload PDF files of your transcripts and standardized examination scores within this section.

### APPLICATION FEE

There is no application fee for the GPP application. University partners may have an application fee.

### CORRESPONDENCE

Questions about the overall GPP and technical issues about the application system should be directed to [gpp@nih.gov](mailto:gpp@nih.gov). Questions about the specific partnerships should be directed to the specific partnership directors (see above PDF files for contacts).
